## 54" RESIN ABOVE GROUND POOL

### STRUCTURE

- 9" curved Synflex™ resin top ledge with 6" uprights reinforced with embossed patterns insuring stable top ledges.
- The ledge covers perfectly adjust to the upright heads keeping the pool's circular orientation.

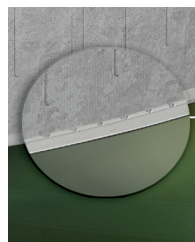

### WALL TREATMENT

- Fortress-like, the wall is made from alkaline cleaned steel with hot dipped galvanized coating specially treated for years of durable, corrosion free use.
- Treated with 14 coatings of Duratex 2000® anti-corrosion steel wall paint.
- Internal wall is protected against humidity and chemicals.

### INJECTION MOLDING

- All the components are molded by an injection process that allows reinforcement of the components (ribbing process), to curve the top ledge and also to use a sturdy snap-on process that eliminates most of the hardware.
- All resin components are colorfast throughout.

### BOTTOM RAILS

- Exterior shields on the bottom rails give them strength and style while locking the wall into place.
- The outside surface of the rails prevent the wall from coming out when the ground fluctuates.
- Oval size bottom rails are different from the true size round pools.

### Warranty

5 Year Full / Lifetime 50% Parts Discount

### Water Safety

Your Above Ground pool has been designed to provide you with years of safe, family fun. This entails that water safety must always be taken into account. When used incorrectly, your Above Ground swimming pool can be dangerous; Above Ground pools are shallow, and this makes diving and jumping unsafe. To ensure your Above Ground pool is used safely you must observe the safety precautions that are provided to you when you purchase an Above Ground pool and conform to all local regulations.
